VIRTUAL GUARD SDN BHD
(1022224-X)

FROM MANAGING DIRECTOR

As a creative alternative to the overwhelming number of technology driven security companies, Virtual Guard has always been focused on creating personal and traditional approach that is compelling, convincing and ultimately, effective.

We are team of military personnel, training specialist and system developers, who specialize in creating and providing high impact security solutions, highly trained guards, full proof security plan, integrated security system and ICT based security projects.

We merge our concept and experience to put all projects on cutting edge of the platform through:-

- Creating identities with custom design security plan and solution
- Facilitating existing security services
- Customised security personnel and support services
- Communication with interactive Presentations

Virtual Guard was formed on one notion. To deliver a positive, quantifiable return on each client's investment-over the immediate and long-term. Providing value services and secure our client's interest is our foremost and unmistakable objective.

VIRTUAL GUARD SDN BHD
(1022224-X)

It takes more than traditional approach alone to implement a security solution successfully. From the strategic level to the tactical level, gaining on in-depth understanding of each client's objectives and interest allows us to take the initiative and provide clarity and direction when solving very complex problems.

Effective communication is the foundation of any successful project. We ensures that key resources assigned to a project are fully accessible, communicate early and effectively. By adhering to a series of well-documented assignments and project milestone, conducting on-site survey sessions, producing interactive security plan and consultation., we provide our clients with constant validation and accountability.

Sincerely,

AZLEE BIN ABD. RAHIM
Managing Director

VIRTUAL GUARD SDN BHD
(1022224-X)

VIRTUAL GUARD QUALITY POLICY

1. To provide fast, efficient and reliable total security services to meet the clients requirement at all times as well as preserving the security reputation and well being of our client
2. The cornerstone of our achievement is through in calculating the culture of operating an effective quality management system meeting the requirement ISO standard at all levels of employees within the company, with committed involvement from top management down the bottom levels of the organization.
3. We shall continually seek to identify appropriate areas within the organization and undertake improvement programs with total participation from employees to continually improve and review for continued suitability of the quality management system of the company.
4. All heads of division shall commit to monitor and review the actual performance of quality indicators/objectives within their respective and accountable function. A timely action shall be initiated should the performance deviate from the planned measurable objectives and relevant functions.

VIRTUAL GUARD SDN BHD
(1022224-X)

OUR VISION

To create credible strategic security alliances, through professional contribution in servicing the security needs of our client that would provide best investment in the alliances and create value to the industry and the best return to shareholders and its employers.

VIRTUAL GUARD SDN BHD
(1022224-X)

OUR MISSION

To increase security consciousness as the core of the first line for protection of human life and property. As society evolves, this has become a necessity.

To provide security solutions covering both the public and private sectors that are differentiated by advanced technological equipment, software and in most cases complex functionality that would discourage users perpetual or correct usage.

To enhance security consciousness as an integral part of the business and private environments where the security aspects are necessary to ensure protection of the individuals and their assets.

VIRTUAL GUARD SDN BHD
(1022224-X)

OUR STRENGTH

We look through your eyes

We do our best to understand your business goals and risks as well as capturing the unique requirements of your concerns. Therefore, we will use this as a checklist for every training and procedures we create professionally to suit your security plan.

Threat Analysis

At Virtual Guard Sdn. Bhd., we strive hard to create tools that understand your customer's and threat behavioral pattern and their unique requirements. These requirements, more often than not, are drastically different from what you might have guessed them to be. We do our homework to make sure there are no gray areas as assumptions when it comes to delivering your solution that match your corporate requirements. This vital and imperative research and development creates a satisfied and secured environment and ensures your immaculate and secured corporate image.

VIRTUAL GUARD SDN BHD
(1022224-X)

OUR SERVICES AND PRODUCTS

Manned Guarding

Our Security Guards match the profile you're looking for. A friendly smiling face to welcome visitors to your premises, or a more assertive no-nonsense approach to protect plant and machinery in the dead of night.

Screened, vetted, qualified and experienced, there's lots going on behind the uniform. Our Security Officers can anticipate a problem long before visitors, guests or shoppers suspect a thing. They can diffuse tensions using tact and diplomacy. They respond to difficult situations calmly and quickly.

VIRTUAL GUARD SDN BHD
(1022224-X)

FRONT OF HOUSE SECURITY

Meeting and greeting customers, or keeping a low-profile (in uniform or plain clothes), we're on watch. Our Front of House Security can blend seamlessly with your staff or stand out, be it for reassurance or as a deterrent. Whatever the point of entry, our officers are trained to search people, their bags, their rucksacks and hatchbacks. Profile can provide welcoming and attentive concierge services too, for hotel and residential situations, at times to suit you.

At profile Security, Front of House takes many forms, but the primary objective is the same: to keep you safe.

VIRTUAL GUARD SDN BHD
(1022224-X)

RECEPTION SECURITY

Our multi-skilled Security Officers are adept at multi-tasking. Many have bags of customer-facing experience, often as a result of working in retail and other service industries. Add to those talents specialised security training and your company can benefit in more ways than you might think.

As well as taking care of security issues, where circumstances permit and the client requests it, our Profile Guards will:-

- Keep tabs on the visitor's log
- Help visitors with directions
- Provide support to reception staff
- Handle first aid and other emergencies

VIRTUAL GUARD SDN BHD
(1022224-X)

MOBILE PATROLS

Crime prevention is our priority, but we're also quick to respond. Profile Mobile Patrols work in a number of ways. Assigned to your premises and their surroundings, rotas will keep regular checks on even the most remote corners where trouble can lurk. We'll devise random rotas, too, just to keep unwelcome visitors on their toes. The other way our Mobile Patrols operate is to provide a flexible, cost-effective solution to your security needs. On foot, by car, or teamed with dogs, our Security Services can call on your premises day or night. Where hiring your own dedicated team is not an option, our Mobile Patrols provide an affordable alternative.

VIRTUAL GUARD SDN BHD
(1022224-X)

KEY HOLDING

Relying on staff to keep keys safe or to be on hand at unsociable hours of the night only leads to frustration. In the case of fire or a break-in, the consequences could cost you millions of ringgit. With Profile's Key Holding Service designed to high standards, we can have your doors open in no time, any time.

ALARM RESPONSE

Linked to our Key Holding Service, our Alarm Response measures protect you around the clock. As soon as your alarm receiving centre gets the signal, we will be on our way, often reaching your premises before the Police:-

- We use uniformed Response Officers and liveried vehicles
- We carry out checks for intruders, damage and signs of forced entry
- We make your premises safe
- We call in your preferred locksmiths or glaziers
- We liaise with the Emergency Services

VIRTUAL GUARD SDN BHD
(1022224-X)

24/7 SECURITY

Our Security Officers are closely supervised and ably supported by their Team Leaders and Managers. Together, they have the kind of local knowledge and on-site training that will keep them a step ahead, whatever the threat. They also have the back-up of Profile's Security Control Room. Around the clock.

This state-of-the-art nerve centre is at the forefront of CCTV technology, supporting Static Officers and Mobile Patrols in the field, keeping check on Lone workers in isolated and often demanding workplaces-indoors and out. Ready for the unexpected, they're also just a phone call away from our most senior managers, ready to handle any crisis.

VIRTUAL GUARD SDN BHD
(1022224-X)

REMOTE MONITORING

As well as placing personnel on site, Profile employs the latest technology, installing event-activated monitoring services. Triggered by a number of discreet sensors, intruders will be immediately picked up on camera and monitored by our CCTV experts at Profile's Remote Monitoring Centre. As well as recording images, we will sweep into action with a pre-agreed course of action-contacting you by phone, dispatching our Mobile Patrols, calling the police or even warning off intruders via an onsite PA system.

VIRTUAL GUARD SDN BHD
(1022224-X)

SECURITY SOLUTIONS

Office Security

When your doors are manned with Profile's smart Security Guards, it's important we project the right image-one that matches you own company's values. Meeting and greeting staff every morning, and as the first point of contact for visiting executives and VIPs, our flexible Security Officers and their teams will take care of officers, commercial properties and council buildings, patrolling the premises, controlling goods in and out, searching individuals and vehicles, monitoring CCTV cameras and more.

VIRTUAL GUARD SDN BHD
(1022224-X)

RETAIL SECURITY

Many of Profile's Security Officers have a background working in customer-facing roles. Where we deal with the public at large-busy Mums, Dads and their families- we know how important taking a softly, softly approach can be. Our uniformed Officers are skilled at dealing with large crowds, letting thousands in during the sales or evacuating entire shopping malls in an emergency. We also deploy covert store detectives, oversee control room operations, manage car parks and provide First Aid.

VIRTUAL GUARD SDN BHD
(1022224-X)

LOGISTIC

As well as providing Statistic Guards, we also move with you. Whether transporting freight by road and rail, our security solutions can provide the support and infrastructure you need to trace, track and trail valuable goods. Our security consultants can analyse your plan, carrying out a comprehensive safety and security audit. We will put in place plant and personnel to help you monitor your assets every steps of the way, using sophisticated electronics. And we can report back to you moment by moment, saving your money in the process.

VIRTUAL GUARD SDN BHD
(1022224-X)

WAREHOUSE SECURITY

Agile And attentive, our specially trained Security Guards don't flinch when it comes to working in hostile environments. Quick to respond - many come from the ranks of the Army Forces - they will work in tandem with CCTV surveillance cameras to scour every corner of your warehouses and distribution centres:-

- They will spot weakness in your perimeter fences
- Challenge suspicious traffic in and out of your gates
- Operate remote gate monitoring systems
- Our Mobile Managers even take care of your Health & Safety issues

VIRTUAL GUARD SDN BHD
(1022224-X)

MARITIME SECURITY

Oils rigs, ferry and freight companies, shipping agencies and port authorities around Malaysia call on Profile Security to meet their stringent standards. Working with Special Branch and the Border & Immigration. Agency within the framework set by the regulatory body, our drills and skills touch on all aspects of maritime traffic in and out of our shores. X-ray screening, searches, sniffer dogs preventing smuggling - it's all in a day's work for Profile's Award Winning Security Management team.

VIRTUAL GUARD SDN BHD
(1022224-X)

VISITORS ATTRACTIONS SECURITY

Permanent or temporary, theme parks and exhibitions call for a special mix of security solutions, from the turnstiles to the souvenir shop. Mitigating the risks while making priceless exhibits accessible to the public calls for a delicate balance. Preventing theft or acts of vandalism often sees Profile Guards working in places that were not designed to welcome large numbers of visitors such as stately homes. Indoors and outdoors, time and again our unobtrusive security professionals prove they are just the ticket.

VIP PROTECTION

Uniformed, suited or unseen, our specially trained Close Protection Specialist provide cover at home and on the move. Shadowing a special visitor for a shopping spree or dealing with a press call and the paparazzi, we will plan routes, prepare venues and ensure the day runs smoothly so celebrity feathers do not get ruffled in the slightest. From sports stars and Royalty to senior executives who'd prefer to be rich but not famous, our Security Agents and Professional Drivers keep trouble at bay.

VIRTUAL GUARD SDN BHD
(1022224-X)

EVENT SECURITY

An AGM, a private function at your corporate HQ - there are many events that call for additional security staff. Because our flexible workplace is ready-vetted and trained, we can respond at short notice, be it for an exclusive launch at Kuala Lumpur Fashion Week or a rock band playing to a record crowd. Profile is adept at working with the Police at all sorts of venues and events, providing :

- Manned Guarding Services
- Ushers
- CCTV cover
- Access control
- Car park management
- Covert surveillance and more

VIRTUAL GUARD SDN BHD
(1022224-X)

DATA CENTERS

With the explosion of e-commerce, email and the internet touching so many aspects of our private and professional lives, e-commerce and data handling call for specialist security solutions. More and more organisations are protecting valuable sales information, intellectual property, customer records and the like at purpose-built data storage facilities, many of these at secret locations. Profile can put dedicated security services in place to protect these sites where anonymity and confidentiality are the watchwords.

HOSPITALS AND SCHOOLS

At profile, we place particular emphasis on vetting our Security Officers, and on training them for everything a specialised environment can throw at them. With hospitals free to make their own security arrangements and more schools now enjoying the freedom and autonomy to source theirs, too, we can tailor a solution to meet their needs. Profile Security offers outstanding value for money as well as CRB-checked personnel with site-specific security training.

VIRTUAL GUARD SDN BHD
(1022224-X)

OUR LOCATION

We operates from : No. 18-2, Jalan 3/146,
Bandar Tasik Selatan, 57000
Kuala Lumpur

Telephone : 03-9058 2762

Facsimile : 03-9058 2762

Email : virtual.guard@yahoo.com

OUR RATES

Designing your security plan is an individual experience. The rate will give you general ideas as what it may cost to create security solutions. Each clients is interviewed to develop knowledge of what is desired and needed for their security solutions, and then a quote is given.

VIRTUAL GUARD SDN BHD
(1022224-X)

PROJECT METHODOLOGY

The following steps are involved in the general flow of consultation and development:-

Initial Consultancy and Task force Formation

Once an assignment has been identified, the Virtual Guard marketing team will conduct an interview with the client in order to determine the goals of the task. Specific goals should be emphasized since this will be the guiding point for the whole procedures development process.

Task force formation refers to the formation of a security audit team that will oversee the security and risk process. The team should be composed of personnel from both the client and Virtual Guard who possess the necessary skills and expertise to complete the evaluation.

The following is an example of task force composition:-

Client side

- i. Security Manager/Executive Incharge.
- ii. Head's of departments who will be the primary deal with the program.
- iii. Technical staff (Technician/Supervisor, etc.)

Virtual Guard

- i. Audit and Enforcement team
- ii. Emergency Response Operatives
- iii. Senior Operation Manager

VIRTUAL GUARD SDN BHD
(1022224-X)

DELIVERY AND MAINTENANCE

After changes have been agreed, and the system/proposal thoroughly for integrity can be implement and used in the “real working environment”. It must be noted that the solution will likely undergo changes as required by actual day to day operation. Therefore, Virtual Guard may have to inform corrective changes, or reflect changes required to adapt to actual conditions. Improvements may also be done, as well as prevention of system failure.

TERMS AND AGREEMENT

As agreed in the contract by both parties.
